

Candidates declare their intention

As the date for the municipal elections in Ontario draws near, *The Times* has begun to poll present members of municipal councils and school board trustees to determine who will be candidates in November.

While it is a simple matter to contact the potential incumbent candidates, it is sometimes difficult to discover who, from outside the present council, other than those already declared, will stand for office. We have attempted to reach those non-incumbents who were aware were in the running, however it is difficult to be aware of all such potential candidates in all municipalities. Those individuals

Anson, Hindon and Minden

Only one candidate has indicated his interest in securing the position of reeve in the municipality of Anson, Hindon and Minden. Councillor Gary Kenney was one of the first to announce his intentions and has been carrying on a spirited campaign since August.

Kenney said he has decided to seek the reeve's chair because he believes the council is lacking in a sense of direction. He said his experience will enable him to bring to council wide ranging agenda for council to act on.

Likely contenders for the top spot include the present Reeve Lyle McKnight. However, when contacted by *The*

Times, he said he had not made up his mind on the matter. He expected to make a decision shortly.

At least one other individual in the community has been suggested as a potential candidate, but the individual was unwilling to commit when contacted by *The Times*.

The present Deputy Reeve Ed Pergolas is another incumbent who is still unsure of what he will do in the upcoming election. While there have been indications he will seek re-election to the deputy spot once again, he was unwilling to offer a definite response at this time.

Councillor Dave Stevens has indicated that he will

who plan to stand for office in November in the municipalities polled this week, and who have not been listed in our report, are urged to contact *The Times* office to indicate their intentions. We will be pleased to report on their candidacy in updates in the following weeks.

This week's report covers the three municipalities in the southwest of the county, Anson, Hindon and Minden, Lutterworth and Stanhope, and the municipality of Dysart et al. in subsequent reports we will be dealing with other municipalities in the county and seeking out candidates for the seats on the Haliburton County Board of Education.

not be seeking re-election this year. He noted that he has been unable to devote the time to the position which he feels it deserves and that, as owner of the Beaverbrook Golf Club, he is particularly busy during the summer months.

Councillor Pat Burk from Ingoldsby was unavailable for a comment during our survey, however she has gone on record to indicate she will be seeking re-election to the post she has held for the past three years.

Bern Berry is the only non-incumbent to have

Deputy District Governor Charles Golden presents the Charter to Minden and District Lions Club president Robert McNab during the colourful charter night celebration at Minden arena on Saturday. Several hundred guests, including MP Bill Scott and MPP John Eakins and representatives of over 20 Lions Clubs in southern Ontario, were on hand during the charter night.

Times office closed Monday

The *Times* office will be closed this Monday, October 14, Thanksgiving Day.

To assist us in maintaining our regular publishing schedule, we request that advertisers and those submitting copy for next week's newspaper have material in by Friday, October 11.

The classified advertising deadline will be extended to 11 a.m. Tuesday, October 15, to accommodate the holiday Monday. Your assistance in helping us meet our usual publication deadline would be greatly appreciated. The staff at *The Times* wishes everyone an enjoyable Thanksgiving holiday celebration.

Police probe late night altercation

A West Guilford man has a broken ankle and a number of other individuals are the subject of a police investigation following an incident in the early hours of September 6.

According to the police, an altercation between two groups of individuals took place in the parking lot at PineStone Inn early Sunday morning. One group attempted to leave the scene in their car, and, as they did so, struck a member of the other group involved. Dwight Sisson, 25, of West Guilford, suffered a broken ankle as a result of the mix-up and was taken to the Haliburton hospital for treatment.

The three occupants of the car were apparently involved in a second incident some time later, resulting in facial injuries and a broken nose suffered by one participant.

The driver of the vehicle in question was Darrell Lindsay, 28, of Stouffville. Passengers were Randy Lindsay, 20, of Irondale and 18 year old Dave Bower of Stouffville.

Constable Brad Burkholder is continuing the investigation into the incident.

Roll over

A charge of careless driving has been laid against a Monmouth Township man following a single car accident early Saturday

morning.

According to the police, 20 year old Steven Brown of Monmouth Township was eastbound on Highway 121 east of Haliburton. He was driving a 1978 model pick-up which failed to negotiate a curve and crossed the road into the opposite ditch. The vehicle rolled over before coming to rest.

Damage to the truck was estimated at \$3,000.

The investigating officer is Constable Brad Burkholder.

Misses deer

An effort to miss striking a deer on the roadway resulted in \$8,000 damages to a vehicle driven by a Minden Township man.

The incident occurred early Sunday morning. The police report that 22 year old John White was travelling on Highway 118 near the Bobcaygeon Road when a deer jumped onto the roadway. The driver swerved and struck a rock cut. White sustained minor injuries in this incident.

Constable Dave Rogers was the investigating officer.

Injuries

Three passengers of a vehicle were treated for minor injuries following a mishap early Monday morning.

According to the report provided by authorities, 16

Gypsy moths pose threat for syrup producers

The maple syrup industry in Ontario has shown signs of healthy growth in the past ten years, but producers are faced with serious problems in the near future, according to several speakers at the annual meeting of the Ontario Maple Syrup Producers held on Friday.

Over 80 members of the association attending the meeting at Branch 129 Royal Canadian Legion in Haliburton, were advised on the twin threats of Maple Dieback and Gypsy Moth

infestation that may have a serious effect on maple syrup production.

A presentation by Bill Langenberg of the Kemptville College of Agricultural Technology painted a rosy picture of the industry's growth.

After suffering a decline in the late 1960's, the production and sales of syrup has increased sharply. In the past ten years, sales have quadrupled from 1.5 million dollars in 1975 to 6 million dollars in 1985.

A decision by association members to join the International Maple Syrup Institute at the 1984 annual meeting, offered hope of increased sales in Europe and Japan, but producers face an uphill battle to maintain or increase sales.

Alex Denys of the Ministry of Natural Resources in Tweed warned producers of the growing threat of Gypsy Moth infestation. According to Denys, the insect has caused serious ecological damage in

the United States since the 1870's when it was accidentally released into the wild. In 1979 alone, the gypsy moth defoliated 13 million acres of forest land south of the border.

The first signs of damage in Ontario were detected in 1981 when 1000 hectares of forest near Tweed were stripped. Since then, the insect population has increased dramatically. In eastern Ontario 246,000 hectares (700,000 acres) has been completely defoliated

during the past year.

When fully grown the insect is twice the size of most native caterpillars and is a voracious feeder. The insect attacks more than 500 species of trees and a single colony of full grown larvae can strip a tree overnight.

Southern Ontario is an ideal habitat for the Gypsy Moth, Denys said, noting the insect has spread from Cornwall to London in only four years. While trees can rebound after a single defoliation, others such as

pine and spruce, can die within a year.

Healthy, fast-growing trees may last only two years if there are repeated defoliations and few species can survive for more than four years.

As Denys explained, when a tree loses more than half its leaves, new leaf growth occurs but this depletes the strength of the tree. The tree uses up more food reserves than it can

Election fever beginning

(from page 1)

announced his intention to seek a seat on the municipal council. Berry, who was a candidate for councillor during the last municipal election, would not say which office he would be running for, only that his name will be on one of the ballots this November.

Berry is a retired member of the Metropolitan Toronto Police Force who said he has the time now to devote to the demands of a council position. He has served as the president of the Minden Lake Ratepayers Association and will be studying municipal administration through a course offered by Sir Sanford Fleming College.

The Times also contacted a number of other citizens in the municipality of Anson, Hindon and Minden, however, none was willing to tip his hat at this time.

Stanhope

To date, seven residents of Stanhope Township have confirmed to The Times they are off and running in the election campaign.

Reeve Harry Davis has announced he will run again for the top position in the municipal government. Three members of the present Stanhope council will be vying for the position of deputy reeve and three candidates including one incumbent, have declared their intentions of seeking a seat as a councillor.

After serving as a councillor for eight years, Harry Davis was elected Reeve by acclamation in 1982. Encouraged by the support of the local community, he has decided to seek re-election. He told The Times there are many reasons for his decision, but singled out the opportunity to solve problems as being important in addition to the challenge the problems provide.

If re-elected he would be able to ensure continuity to the work council has carried out in the past, he commented.

A three-way race for the position of deputy reeve promises to enliven the campaign in Stanhope Township.

The incumbent Elgin Stouffer has held the position for two terms and also served as councillor for two terms. His concerns for good government in the township and the importance of continuing the excellent work of the administration are two reasons he gave for wishing to continue in the post.

He also indicated a desire to continue his work as chairman of the County Forest Management Committee and as the County Council representative to the Chamber of Commerce, two positions he said he takes very seriously.

After serving as a councillor in Stanhope Township for 13 years, Elvin Johnson told The Times he felt it was time to step up to the position of deputy reeve.

He expressed satisfaction with the work he has done, both on council and on the various municipal committees that perform a valuable function in the community. He will be running he said because of the importance of good representation on council and at the committee level.

Dale MacDonald is the third candidate in the running for the office of deputy reeve. MacDonald has been a councillor for a total of five years and has decided to run for the second highest office because he feels better representation at the township level was needed in the position.

This will be the third election campaign for Ann Barker. After losing by only seven votes in the 1980 election, Barker won a seat as councillor in 1982. She cites her interest in community activities and the steady growth of the township and county as the two main reasons for her candidacy.

She also expressed her concern over the unemployment of young people in the region, but emphasised she is not running because of any complaints about the township government, but because she wants to provide positive input.

November's election will mark the return of Jim Harrison to municipal politics. During his 13 years on council, Harrison served as councillor, deputy reeve and reeve and also served as county warden in 1979. Since

stepping down from the position of reeve in 1982, Harrison has continued to serve on four municipal committees and the Stanworth Non-Profit Housing Corporation Board. An interest in continuing his work for the betterment of the community was the main reason he gave for his decision to enter the race for one of the three councillor seats.

Paul Harrison completes the list of political hopefuls who have announced they are seeking election in November. A native of Stanhope, Paul Harrison worked in Toronto for some time, then returned to the township last year. His interest in politics on all levels, his concerns on unemployment in the area and a desire to become more involved in the community, were the reasons he gave for entering the race for councillor.

Lutterworth

This will be a year of change in Lutterworth Township. Two members of council have indicated they will not be running in the November election. Reeve Ron Gambell has decided to **step down** after serving on council since 1976. During that time he has climbed the political ladder from councillor to deputy reeve, to reeve and served as Warden of Haliburton County for one term in 1982.

However, while Gambell has stated he will definitely not run in Lutterworth Township, he told The Times he has not ruled out the possibility of running in the municipality of Anson, Hindon and Minden.

Councillor Bill Prentice has also decided not to run again. After eight years on council, Prentice feels he has done his share of public service for the township and has decided to take a rest. "It is time for some other people to take a crack at it," he said.

Another veteran of Lutterworth council, Bill Valentine, has declared his candidacy for reeve. Since being elected to council in 1967, Valentine has served almost continuously both as a councillor and as reeve in 1971. Valentine said he enjoyed his term as reeve and the responsibilities of County Council and wants to continue to serve the residents of the township.

Major Glynne Lewis will again be running for the position of Deputy Reeve, a post he has held since 1978 after serving two years as councillor.

Lewis commended the work of the municipal office staff and roads department and said he wants to continue in office to ensure nothing interferes with these two departments. He also expressed a wish to continue his work with the Childrens Services Advisory Group which he was instrumental in founding.

(The Times was unable to contact Councillor Al Stott during the poll of potential municipal candidates. However, in previous conversations he has indicated he intends to run for the position again. Pamphlets announcing his candidacy are in circulation in the township.)

As of this writing, three new candidates have thrown their hats into the ring.

Carol Puffer, a permanent resident of the township since 1984 following ten years as a summer resident, has entered the race for deputy reeve.

Puffer told The Times she believes she has the time and energy to devote to the people of the township. "I want to help and I will always be available to listen to people's concerns" she said.

Elizabeth Wright has entered the race for councillor because of her desire for more involvement in the community. She cites her long business experience as an important asset and notes that as a retiree, she has the time, energy and interest to devote to the job of councillor.

Lisa Mercer rounds out the slate of Lutterworth candidates who have declared their intentions of running. After ten years of summer residence, Mercer has made the township her permanent home home yours ago. She feels her experience will be important assets in serving the municipality and looks forward challenge the position of councillor has offer.

Dysart

Our telephone survey of the candidates in the municipality of Dysart et al was not as complete as we had hoped since we were unable to contact ward three councillor Lloyd Leadbetter or ward two councillor John Parish.

Dysart Reeve Murray Fearrey is another incumbent who has yet to decide whether to stand for re-election. While the reeve and twice former warden of the county

Police report

(from page 1)

year old William Hutchings of Stanhope Township was the driver of a northbound car on Highway 35, five km south of Minden. The driver apparently fell asleep at the wheel, resulting in the vehicle crossing the roadway, entering the opposite ditch, striking a rock cut and

rolling over.

The driver, and two passengers, 15 year old John Cooper of West Guilford and 16 year old David McKay of Haliburton were treated at Minden Hospital for minor injuries and released. Damage to the vehicle was estimated at \$4,000.

editorial

Not needed here

As the municipal election date draws near, more candidates are starting to make their appearance on the scene. Our report on page one of this week's newspaper indicates that in a few jurisdictions, at least, election fever is starting to grow.

Overlooked somewhat so far in Anson, Hindon and Minden, is the question of whether the municipality should adopt a ward system of representation. Under the proposal, the jurisdiction would be divided into three areas of equal population, with each ward electing its own member of council. The reeve and deputy reeve would still be chosen by the entire municipal electorate, as would trustees representing the townships on the Haliburton County Board of Education.

While a ward system may have some initial appeal for voters, particularly living outside the main population centre of Minden, we believe adopting a ward system would create more problems than it would solve. The municipality is not that large that a representative from Ingoldsby, for example, shouldn't be aware of, and willing to react to, situations in Carnarvon or Brady Lake of Minden Village.

We think the municipality as a whole will be better served if all members of the council feel a responsibility to all members of our community. Indeed, there are few problems or solutions which don't have an impact on all parts of the municipality.

A ward system would formalize a parochial attitude that would divide the three councillors into opposing camps seeking everything for their own distinct part of the townships.

There is plenty of time to consider the question between now and voting and we urge all concerned voters to discuss the pros and cons of a ward system with candidates and their fellow citizens. We feel sure that careful consideration can only lead to one conclusion, that a ward system is not required and in fact, could become a major hindrance to future development within the municipality.

Forest foliage

outdoors

Federation of Ontario Naturalists

Silently they glide o'er. Broad, dark silhouettes against the crisp blue of a still, Indian-summer morning. South-by-south-west, they stream, in a procession that will continue all day long.

The fall hawk migration which peaks over the next week or so, is a fascinating event. It's wedged between the now-complete exodus of insect eating warblers (who could be starved en masse by an early frost) and the departure of waterfowl (whose food, bathed in water's heat pools, will be the last ensnared by winter's grip.)

Shortening days cue the migration which is necessary less to avoid cold than to sustain the supply of small birds and mammals upon which most depend.

Perhaps 1,000,000 adults and young, of 12 different species, will come through. While all share the basic hawk form, each is distinguished by silhouette and markings.

Broadwings and stout, crow-sized hawks, aptly named for their broad, white-undersided wings and short, broad tail, boldly barred black and white. Though seldom seen in agricultural Ontario during breeding season, they're our most abundant hawk during migration. This is because they are woodland hawks, breeding throughout the vast forests of northern Ontario, and wintering in central and South America.

Sharp-shins - nicknamed 'sharpies' by birders - are the next most common. Smaller than broadwings, they have a long, narrow tail whose end is so squared it looks like someone snipped it with scissors. Forest birds also, they're highly agile, able to manoeuvre among trees in pursuit of small birds.

Red-tails - named for their unmistakable, rusty feathers - are the typical hawk of agricultural and cleared areas, where they consume vast numbers of mice and moles. Anticipating snow's deep mantle which will shelter rodents from their reach, red tails, head south. Interestingly, the banana belt kept largely snow free by Lakes Erie and Ontario and around the fringe of large urban areas, affords an abundant supply of small mammals and many red tails will end their migration there.

Hawk migration proceeds erratically and is integrally tied to the weather. During storms, fronts and windy days, there is almost no movement - to do so consumes undue energy. Instead, hawks await still, clear weather. Their ideal seems to be those still, sunny crisp mornings of early autumn, especially following a cold night, or several

letters letters letters

Editor:

I read with concern your September 4 editorial "A Helping Hand" regarding the provision of a boat for island emergencies. We feel your comments deserve some clarification.

The Gull Lake Cottagers Association (GLCA) has worked hard for two years with Lutterworth Township to develop an Emergency Services System for Gull Lake. To date we have completed a detailed property and access road map, and distributed this to over 500 property owners and key essential service groups in Haliburton; regardless of whether they are a GLCA member or not. We are also working jointly with Lutterworth Township and the Ministry of Transportation and Communications to erect specially marked signs along public and private roads to identify property access; including islands.

Our program once

completed, will cost the association over \$2500. In our view a substantial contribution.

I might add that Lutterworth Township has also been generous with their time and money on the project.

Concerning island properties, we agree that property owners face greater risks due to their relative isolation. But to suggest they assume exclusion from tax based services because of this poses an interesting legal and moral question.

Cottage areas throughout Ontario do indeed pose special challenges to municipal politicians, but they also provide for a large portion of the economic vitality of small communities. In Haliburton, the cottage community represents over 70% of the tax base and is the primary mainstay of the local economy as a purchaser of goods and services. In

reality there are few, if any, services cottagers enjoy for their tax dollars. Given the problem of serving waterbased homes this situation is generally understood and reluctantly accepted. However, as circumstances permit we believe that fair and equal consideration and support for, special services is not unreasonable.

On Gull Lake we do not take the privilege of living in the area for granted and strive to maintain good citizenship and a natural environment we can be proud of. It is not our policy to ask for handouts, nor do we think we have done as much in this case. We have made a genuine effort to serve and support the community on this matter with our time, money and co-operation.

From the outset, the objective of the Emergency Services Project has been to

Playground

Editor:

Re: Ed Pergolas' response to your "Bouquets" editorial September 25 on the children's playground.

I am beginning to see a pattern develop with regards to the improvement of Minden's low priority areas: those areas most small towns have made over to band shells, town parks and playgrounds. Minden seems to think of them as future parking lots or building lots to barter at will. It is ridiculous to order an improvement study to beautify Minden and then pave all the vegetation. Am I the only parent to see the "better playground" that the council is taking bows over as a potential danger zone and horrendously reduced play space that is sandwiched between concrete and pavement?

Please - take another look. In 1981 the total space was allotted to the children's playground. The equipment had not been look after and was in need of repair. I made a few phone calls and talked to the right people who take care of these jobs, (the buck stops at Brian Sisson as do numerous other bucks), and they assured me that the two replacements for broken swings had been ordered and the other repairs would be carried out. In 1983 I again asked about the baby swings and the replacements and they finally appeared in July, 1983. The grass and sandbox were just ignored.

I talked to Mr. Pergolas about the condition of Minden's only town playground and he said it really wasn't supposed to be there anyway and wasn't I lucky just to HAVE the equipment at all. After all, at any moment it could be turned into a parking lot. He also pointed out that the Rotary Park was also available if I was concerned about the town's area. As I don't have transportation, the Rotary Park on the highway was of little interest to me or my two and four years old children, but I did go once. It was the last week of June, 1983 and the grass was over my little girl's head. It's a nice parkland area, but hardly a playground.

And so back to Minden's playground. In early summer, 1984, the council

started to systematically reclaim the play area by changing around the old equipment and cutting down the total area, (next to the municipal office for parking) by about one-third. They got rid of the sandbox and moved the play platform. In summer, 1985, they did what you see now: the playground is beside the municipal office and a further one-third has been reclaimed. The swingsets were decreased by half ... where once there were eight swings there are now only four: two children's and two baby swings. The running area was totally annexed and replaced by a sand base. The one old, rotten picnic table remains. I guess the park bench is written into "next year's exciting plans for grant money".

Last Wednesday evening - September 25, 1985, was a beautiful night to go to the park. I counted twenty-three children there. How did the new area fare? Well, it certainly was crowded ... how can four swings accommodate ten and more children? ...how can one children's slide accommodate ten and more children? ...And the tag and running? Where is it to take place? In the street next to the fire-hall?

I agree that the three new toddler riding-toys, the toddler slide and the climbing set are great. But the trade-off was much too expensive to the core children of this town. The location of the playground is too close to the parking lot. Children dart out without a thought to the traffic this parking lot is forecast to attract. The potential hazard is clear. The size of the playground has been reduced too greatly to effectively serve our children well.

And yet I hesitated to write this letter: Mr. Pergolas made one thing very clear to me. The council can AT ANY TIME take all the area away and pave it. They can leave our children with not one-third of this town's only public playground but nothing. So don't make waves. And that attitude scares me. Why hasn't any Minden council safe-guarded a central town area for the recreation of Minden's children and citizens? We take these areas for granted in Haliburton's park, in Lindsay, Peterborough, Cobocok, Buckhorn. And Minden is paving ours. The parkette goes next. One reader asked why it wasn't named. Why bother? It is under the hammer and gone.

But I am wiser ... in 1981 I looked at the large playground and thought of how I could improve its condition if I only had a grant. And today? As the song goes:

Don't it always seem to go?

*That you don't know
what you've got 'til it's gone.
They paved Paradise
And put up a parking lot.*

And is there a solution for a permanent recreational area central to Minden residents? That area Bill Ingram talked about behind the present tennis courts sounds great if Mr. Pergolas sees the playground going by the boards completely in the next few years. The property is municipally owned just off Prentice Street and so should be publically available to all. And Brian Sisson says adequate parking is already there so that area might be ideal.

Last Easter, Mary McKelvey wrote a letter asking some part of the Minden council to concern itself with our children and children's activity programs. This summer showed the track record of the council. Can't something be developed into the town's plans by members of council to offer our future citizens their own unthreatened play space and guarantee it? There's gotta be a way...

Other thoughts and the time taken will be appreciated.

**Nancy Adamson,
Minden.**

Angling rules

Editor:

We have noted your new story "New Angling Rules Challenged" September 25, 1985.

We would like to point out the following with respect to the proposal to close only selected lake trout lakes in winter.

Fishing Division 13 to the north of Haliburton County is open to lake trout fishing April 27, 1985 to October 10, 1985.

Fishing Division 9 to the east of Haliburton County is open to lake trout fishing February 2, 1985 to February 17, 1985 and June 1 to September 8, 1985.

Fishing Division 29 also to the east of Haliburton County is open March 9, 1985 to September 8, 1985 and Fishing Division 6 to the south and west of Haliburton County is open to lake trout fishing April 27 to October 10, 1985.

All very sensible dates. And what about Haliburton County (Division ??) The dates are January 1 to October 10, 1985.

So where does the winter fishing pressure go? You guessed it...to good old Haliburton County.

The Ministry of Natural Resources proposal to close a few selected lakes to winter

fishing is a questionable approach to a complex situation and may not even be a good compromise.

Their proposal will result in - you've guessed it again - all the problems, pressure, traffic and garbage moving over to the adjacent lake (s).

There are many unanswered questions, there are many possible problems and there are many possible solutions. There are also many alternatives to be evaluated.

For example, if it is deemed appropriate that lakes be closed to winter fishing, then it would seem logical that all the lakes in the area be closed.

Haliburton County, the area municipalities and the lake associations are urged to take a very close look at the proposal, make their concerns known and forward their recommendations to the Ministry of Natural Resources.

We suggest that much more alternative evaluation, potential problem analysis and dialogue is on the horizon before the proposal as it now stands is etched in cement.

The bottom line, back to the drawing board guys!
**J.G.Strickland,
President, Miskwabi Area
Cottagers Association Inc.**

More bouquets

Editor:

Your "Bouquets" editorial, September 25, is great, but we really need a whole flower garden, e.g.

- To our school bus drivers for their efforts to be sure our kids are safe, yet keep traffic flowing by letting vehicles behind pass.

- To PineStone Inn for the beauty spot they have created on Highway 121 (as well as the jobs.)

- To our local merchants and dealers who give honest year round service and down to earth prices.

- To you and your crew at The Times for your lively, interesting coverage of the local scene.

- To the dozens of people who work so hard, unpaid, to provide us with local sports and recreation.

I could go on and on but you have the idea.

**Bill Valentine,
Moore Falls.**

For the dogs

Editor:

The Times ran a very funny but not quite true pictorial advertisement Wednesday, October 2. We know "Chicago" is a fine, kind and handsome Plott

Hound, but if he's so accomplished, how come he has to have someone hold him by the scruff of the neck and also detain him with a logging chain just for a photograph?

The trophies seen in the photo are a misrepresentation. Golfing and hockey are out, as we all know Chicago is not a good skater and repeatedly has 4 putt greens on a good day. We suggest the only possible true award Chicago could be eligible for is the ribbon which he may

have won fourth prize in a goat contest. That particular ribbon was allegedly stolen from the Kinmount Fair.

As a point of interest, and being the kind of admiral Plott he really is, "Shovel Head" has forwarded his cheque for \$25.00 to help his brother "Chicago" in his quest for justice. However, at the time of writing, has not received his large bronze paw imprint.

**Al Coneybeare,
Minden.**

Fearrey still uncertain

(from page 3)

was still considering his future plans as of Tuesday, he said he expected to have decided by next week. Fearrey has been a strong contender in Dysart, winning by acclamation on several occasions.

Dorothy Baker will be seeking re-election as councillor in ward three, a position she has held during the last term. Describing herself as a community-minded person, Baker told The Times she has the energy and the time to devote to council duties and hopes to continue serving the people of the municipality.

Sid Cooper has also indicated he will be running in the November election. First elected as councillor in ward 4 in 1980, he was re-elected by acclamation in 1982. During the past term he took over the duties of deputy reeve following the resignation of Gary McKnight.

Cooper told The Times he believes his past experience and community minded outlook will enable him to serve his constituents well in the position of councillor in ward 4.

Glen Hodgson, the incumbent councillor of ward 5, brings with him a lengthy political career in his bid for re-election.

Hodgson served on the municipal telephone system board from 1953-63. He went on to serve in the provincial legislature as the Conservative member of parliament for Victoria-Haliburton for 12 years.

In 1982 he began his first term on Dysart et al council. His background makes him aware of the problems of serving in public life but, as he told The Times, the appreciation of the community and the accomplishments of the office make the job worthwhile and important.

There is one candidate that we know of running for the position of deputy reeve.

After a five year absence from the political scene, Harold Bannon has again declared his candidacy.

First elected in 1965, Bannon served as a councillor for nine years then went on to become deputy reeve, a position he held for three terms. Bannon said his 15 years experience on council has given him an in-depth knowledge of the workings of the municipal government as well as the county and provincial levels, making him well suited to fill the deputy reeve position.

Gypsy moth

(from page 2)

produce when growing a second crop of leaves. The lack of food reserves, needed during the winter, and the eventual depletion of reserves results in the death of the tree. Even if a tree can survive a single defoliation, the trauma will have a serious effect on sap production, a fact that was not lost on the maple syrup producers.

Since the moth's natural enemies, birds, rodents and viruses have little effect on

the huge population, governments have turned to insecticides and biological sprays, but, as Denys noted, "They have been trying to wipe out the gypsy moth in the United States for over one hundred years and a solution to the problem still hasn't been found."

Insecticides that affect only gypsy moths have proven effective in test programs, Denys said, but he cautioned, the insect can only be controlled, never eradicated.

The sprays used in test

areas in the province had no effect on the bird population and other insect populations returned to normal within ten days Denys said, emphasising, properly administered insecticides have no effect on people or animals.

Denys ended his presentation by emphasising controlled spray programs are the only known weapon against the insect and predicted maple syrup producers in Southern Ontario may have to conduct annual spraying programs to ensure the survival of their sugar maples.

days of inclement weather. Then all at once, they seem to soar, usually 150-400 feet above the ground.

Moving singly, they head southward, taking advantage of shoreline bluffs, escarpments and other features whose natural updrafts provide ideal soaring conditions. Hawks rarely race; rather, most move steadily, taking several short strokes and gliding, taking perhaps 2-5 minutes to pass from horizon to horizon.

Southward they continue until they 'hit' the great lakes where they abruptly turn to follow the shorelines westward. Funnelling and accumulating as they go, they round the west ends of Lakes Erie and Ontario. During peak periods, this

provides huge numbers - up to 90,000 have been observed in one day - at Holiday Beach - south of Windsor, and Hawk Cliff, south of Hamilton.

Like all birds of prey, hawks play an important role in nature, eating 'outbreaks' of pests and adding stability to the ecosystem. It's for this reason that The Federation of Ontario Naturalists worked to secure legislation which provides legal protection for these magnificent birds.

Any of the excellent field guides now available will readily distinguish hawks whether perched or high overhead. But you don't need to identify them to appreciate them. Simply look skyward on the next sunny day.

Supervisor of the Minden Ontario Hydro Office, Cal Wilson, accepts an award from Al Perttula, director of the Georgian Bay region paying tribute to the more than one thousand days the employees of the Minden office have worked without a lost time injury. The presentation

was part of the Safety Award banquet held Friday in Minden Community Centre. Since joining the Georgian Bay region in 1973, the Minden office has won seven safety awards.

Ensure proper ventilation

Furniture refinishing, whether a hobby or business, should be done with care and caution, advises the Lung Association, Victoria Haliburton Counties.

Many powerful chemicals are used in the process of stripping wood of its many layers of paint and varnish. "Make sure the area you are

working in is well ventilated," say medical advisers.

Labels on common paint strippers do tell the user to work in a well ventilated area and that people with heart problems or impaired lung function should avoid exposure ... (contains methylene chloride).

Methylene chloride changes to carbon monoxide when inhaled. Carbon monoxide decreases the oxygen content of the blood, therefore reducing the amount of oxygen available to the body. That is why people suffering with heart and lung problems, find this

reduction in oxygen particularly taxing.

Common sense rules for furniture refinishing include making sure that windows and doors are open to ensure a flow of fresh air while working. It also makes sense to do refinishing away from

lived in areas, such as bedroom or living room.

Refinishing furniture either for the hobbyist or the professional should be carried out with care and caution.

Remember - lungs are for life - your life.

Seal out drafty doorways

Drafty doorways affecting the comfort of your home? Doors that are not well sealed and insulated will allow a lot of cold air into your house and have a noticeable effect on your heating bill.

In any doorway, properly installed weather-stripping will make a big difference. You should look for a product that is strong, secure and resilient. It should also be easy to replace, since it will be under a lot of stress from opening and closing the door.

When closing the door, you should have to pull it to get it latched. This indicates a pressure seal that will stop air leakage.

Where possible, the tops and sides of any door frame should be weatherstripped so that it makes contact with the edge of the door to

provide a good seal even if the door should warp. The V-shaped compressible metal or vinyl weatherstripping is best.

Weatherstripping against the face of the door should be checked often, because it will have to be adjusted occasionally to match the warping of the door.

It is very important to weatherstrip the threshold of the door because this is frequently the location of serious drafts. This can be achieved with weatherstripping attached to the threshold or to the bottom of the door.

If the weatherstripping is attached directly to the top

of the doorsill, it must be very durable to withstand heavy use. Remember to check for clearance - the door may have to be

trimmed to accommodate it. Interlocking weatherstripping provides an

Seniors subsidy

Bill Scott, M.P. Victoria - Haliburton, recently urged all widows and widowers aged 60 - 64 not now receiving spouse's allowance to contact their local office of the Income Security Branch of Health and Welfare Canada. In doing so, Scott stated, "You too may now be eligible for the new Spouse's Allowance program which has just been implemented by our government if you are a widow or widower aged 60 - 64, and a Canadian resident, regardless of when your spouse died."

The offices serving Victoria - Haliburton can be reached at Lindsay. Telephone (705) 324-6011 (Thursday only).

Neil Burk accepts a safety award from Cal Wilson to commemorate his 7 years of service with Ontario Hydro without a lost time injury. Other recipients included George Rayment 28 years, Doug Thomson, 30 years, Boyd Carr 26 years, Doug McGee 33 years, and Les Northey 27 years.

Weather stripping helps

(from page 9)

excellent seal but is difficult to install. Any number of other materials will provide an effective seal, but the key is to check it regularly because there is so much movement within the house structure, as well as from the movement of the door.

If your door has glass in it, you should take the same precautions as you would with any other window. Double glazing should be used with adequate caulking

around the edges. Since patio doors are usually used only as windows in the winter, they should be thoroughly sealed with weatherstripping or duct tape. Northfacing patio doors are probably the best place to start if you are considering insulated blinds or shutters.

Storm doors provide an extra layer of insulation from the cold and can be a valuable energy conservation measure. They are fairly

inexpensive and their installation is not complicated.

Vestibules form an airlock that can significantly reduce energy loss through doorways. A closed porch, garage or specially constructed entranceway can lower heat loss when doors are opened. If your home does not already have one, you should consider constructing a vestibule entranceway when home renovations are planned.

Grants awarded

A group of retired people from Minden will receive a New Horizons grant for \$5,684, Health and Welfare Minister Jake Epp announced recently.

Staanworth Court Residents Club will establish a program of activities such as pot-luck meals, barbecues, entertainment, fitness classes, games, gardening, glass cutting and stitching crafts.

New Horizons is a federal government program that enables retired people to create projects of their own choosing. It offers grants to groups who undertake activities for the benefit of themselves and others in their community. The accent is on local needs as seen by older people and on their willingness to meet such needs.

The Kinmount Senior Citizens Unit 714 have been awarded a grant in the amount of \$23,170.00 to renovate, furnish and equip the old railway station and convert it into a drop-in centre for seniors residing in Kinmount and the surrounding area.

Former residents help in search for the Titanic

It is a long way from Minden to the shores of the Atlantic Ocean, and even farther to the watery grave of the luxury liner, the Titanic. However, in a small way, that distance was bridged recently when the resting place of the ocean liner was discovered by a

joint U.S. - French expedition.

Two former residents of the Minden area played an important part in bringing visual evidence of the discovery to the rest of the world.

Bob and Jim Freeman, who used to reside with their parents at South Lake Lodge near Minden, and who attended Haliburton Highlands Secondary School, helped transport film of the wreckage from the search crew back to their helicopter base in Newfoundland.

The wreck of the Titanic was discovered some 560

nautical miles southeast of the coast of Newfoundland. The discovery team had employed the services of Sealand Helicopters to ferry the film of the wreckage back to a base at St. John's.

Both Bob and Jim have been employed by the company for a number of years and while the film pickup was another routine project for the brothers, it was of special significance to the rest of the world.

The two have worked for the Newfoundland based company for a number of years. They fly the heavy duty Super Puma helicopters, often servicing offshore oil rigs. The company is also involved in work around the globe, and, as a result, the brothers have travelled to Brazil, Africa, Labrador, and the far north. The helicopter they fly is the only one in Canada which could have made the seven and a half hour return flight to the site of the discovery.

Captain Robert Freeman, foreground, and a co-pilot, at the controls of a Super Puma Helicopter which carried filmed proof of the locating of the sunken luxury liner, the Titanic.

Redmen score double win in Pembroke road trip

The HHSS Redmen had a rare opportunity to play outside their league during the regular season Friday, October 4 when the Junior and Senior teams competed in exhibition games against Fellows High School in Pembroke. The teams left their mark on the host club as the Juniors won their game 9-0 and the Senior Redmen came up with a 15-6 victory.

The Junior Redmen played an aggressive game right from the opening kickoff.

Strong running plays by Jaro Cooper and Blake Collard moved the Redmen to the Pembroke ten yard line early in the first quarter.

After the host club gained possession of the ball, they attempted a punt from deep in their own end. The Redmen defence blocked the kick and Haliburton took a 1-0 lead after the ball rolled through the end zone.

The Redmen made it 3-0 before the end of the first quarter when Ron Perin tackled an opposing player in the Pembroke end zone resulting in a two point safety touch.

In the second quarter, the Pembroke offence was shut down by the Redmen. Glen Scheffee and Derek Little were instrumental in defusing the host club's attack when they blocked two attempted punts.

The third quarter was more evenly matched but neither team was able to score.

Craig Crowe began the

final quarter on a positive note with an interception of a Pembroke pass. Two plays later, Ron Perrin surprised the Pembroke defence with a quick kick play.

When the ball was fumbled, Matthew Creelman pounced on the pigskin in the end zone for a Redmen touchdown. The convert attempt was unsuccessful giving the Redmen a 9-0 lead.

Pembroke put on more pressure in the final minutes of the game but lost possession when Craig Crowe recovered a fumble and the game ended with Redmen gaining the shutout.

Coach Gary Brohman commended the work of all the players, singling out Glen Scheffee and Alan Rydman for their solid play on defence.

Senior game

In spite of some good running plays by Jeff Bain and Andrew Burk, the Redmen were unable to score in the first quarter which ended in a scoreless tie.

The offence continued to dominate play in the second quarter picking up six first downs in a row on the strength of the strong performance of Scooter Burgess, Peter Allore, Jeff Bain and Andrew Burk.

Quarterback Trevor Powers finally broke the deadlock scoring a touchdown on an 80 option play.

The convert by Scooter Burgess was successful giving Haliburton a 7-0 lead.

Scooter added another point late in the second quarter when his 30 yard field goal attempt went through the end zone.

Pembroke rebounded with some help from the wind and 60 yards in penalties to the Redmen to narrow the score to 8-6 in the third quarter on a touchdown.

The Redmen regrouped in the fourth quarter and moved decisively downfield but were stalled at the Pembroke 40 yard line.

Pembroke regained possession after a high snap and marched to the Redmen 20 yard line. Their field goal attempt was deflected and Haliburton took control on their own 5 yard line with less than three minutes remaining in the game.

Two off tackle plays by Andrew Burk and Jeff Bain began the Redmen's final offensive drive of the game. Then a block by Jeff Bain set up a 26 reverse play to Peter Allore that pulled the Redmen out of trouble.

With time running out, the Redmen decided on a play they had been

practicing all week. Tom MacLeod took a quick pitch pass from quarterback Trevor Powers and threw a perfect 30 yard bomb to Ian Cooper who capped off the play with a 25 yard run into the end zone. The convert by Scooter Burgess was right on the mark giving the Redmen a 15-6 lead to end the game.

Coach Gary Brohman said later, the game, played under American rules, put a lot of pressure on the defence but the players met the challenge. He cited a blocked punt by Paul Allore and a fumble recovery by Glenn Hall as two key plays for the Redmen defence and also noted the solid work of tackles Mike MacNaull, Kevin Barnhart, Daryl Ward and Tom MacLeod.

Home town fans will have an opportunity to see their teams in action this Friday when the Redmen host I.E. Weldon at the Haliburton Highlands Secondary School.

The action begins at 1:30 with the Junior game followed by the Senior's contest.

TOWNSHIPS OF ANSON, HINDON AND MINDEN

NOTICE TO THE ELECTORS OF THE TOWNSHIPS OF ANSON, HINDON AND MINDEN QUALIFIED TO VOTE AT A MUNICIPAL ELECTION.

NOTICE is hereby given in accordance with the Municipal Act, and pursuant to By-law No. 85-38, passed on the 29th day of August, 1985, that a poll is to be held upon the following question:-

"Are you in favour of the division of the municipality into three wards for the purpose of having a council composed of a Reeve and a Deputy Reeve, each to be elected by general vote, and a Councillor to be elected for each of the three wards?"

The day fixed for taking a poll shall be TUESDAY, NOVEMBER 12, 1985. Two advance polls will be held on SATURDAY, NOVEMBER 2, 1985, and SATURDAY, NOVEMBER 9, 1985.

I, Beverley Anne Millar, Clerk of the Townships of Anson, Hindon and Minden, certify that the question set out herein is a correct statement as authorized in By-law No. 85-38.

Making the outdoors fun is big business

Years of hard work and dedication by three generations will pass a significant milestone this weekend as Prentice Berry Limited officially open their new showroom and office complex on Highway 35 south of Minden.

The opening is a particularly happy moment for the two partners who now own the business, Paul Prentice and Steve Berry. For them the new structure represents not only a recognition of their own efforts and members of their family who preceded them, but also a promise of continuing growth in providing outdoor recreational products and housing for property owners in Haliburton County.

The success of Prentice Berry Limited, as the business is known today, stretches back to 1952. At that time, Minden resident Morgan Prentice started a company known as Prentice Roads Limited. His company was created in response to the growing interest in cottage properties in the Highlands. As more individuals purchased lakeshore property here, their first requirement was a quick and easy way to reach their vacation homes after leaving the main highways.

The company grew with the increase in traffic into the county, and along with his son Bill, Mr. Prentice saw his firm grow into a respected name in the area.

In the mid 60's however, it became clear that the needs of area residents were changing. Seeing the new winter recreational vehicle, the snowmobile, as having a great deal of potential, the company acquired the Bombardier Ski-Doo franchise for the area. The move was the first and perhaps most significant step taken by the firm in its change from a road construction company to a supplier of recreational vehicles.

Paul Prentice remembered those early days when the snowmobile came to the Highlands. The company ordered the requisite number of snowmobiles for the first season. However, being hesitant to invest in a costly parts department on this new venture, they simply dismantled one of the new machines, providing them with a ready supply of spare parts for the first season. As it turned out, the demand for the new winter vehicles proved so strong that before the season ended, the dismantled snowmobile was put back together and sold to another eager buyer.

The success of the snowmobile helped propel the company to the point where, today it is one of the leading retailers of Bombardier snowmobile products in Ontario. The

snowmobile also provided another significant key to tourism in the Highlands. Cottages which were locked up on Thanksgiving and left empty until May 24, now became accessible during the winter months.

The snowmobile successfully helped to expand the cottage season from five months to virtually year round.

The impact of this development was felt throughout the community, resulting in increased building activity, more visitors in the off season and the formation of the Haliburton County Snowmobile Association to oversee the extension of the snowmobile trail system.

While the peak in new snowmobile purchases was passed a number of years ago, the business has reached an equilibrium which provides a steady portion of the Prentice Berry business. According to Paul Prentice, Bombardier, the leading snowmobile manufacturer, the industry still foresees a steady and significant ten percent growth annually.

Having found their niche in the recreational vehicle market, the company expanded in 1980 to include the Johnson outboard motor line by the OMC Corporation and the Honda product line, including ATCs and power equipment in 1982.

After many years of watching the business grow, Bill Prentice withdrew from the company in 1980, turning it over to his son Paul and son in law, Steve Berry. Bill still retained his interest in Lutterworth Estates, a model modular home retirement community across Highway 35 from the retail outlet. Bill has also been a source of help and information for the new partners as they steered their new company through years of rapid growth. Prentice Berry is also a supplier of modular homes in Lutterworth Estates and many other locations.

Earlier this year Prentice Berry Limited also became the Haliburton County agent for 1867 Confederation Log Homes. This Bobcaygeon based company provides pre-cut log structures for the home, cottage and office market. The new showroom on Highway 35 sports a front constructed of Confederation pre-cut logs.

The new building includes 2200 square feet of showroom space plus 200 square feet for offices. Paul noted that the old building was 900 square feet and the partners are enjoying the extra space. "We can now display samples of our complete product line and let people know how diverse our business really is," he commented. The wide windows along the front and

Members of the management and staff of Prentice-Berry Limited pause for a photo on the front steps of the company's new showroom. They include, from the left, mechanics Leroy Lichty, Ian Minto, Kim Hamilton and Brian McKnight. Kirk Taylor, right, is the contractor responsible for the erection of the new structure. Owners Steve Berry and Paul Prentice, along with Bonnie Lee Berry, top, are ready to welcome everyone to their grand opening celebration this weekend.

ample lighting make the showroom a perfect place to show their many recreational products.

Looking ahead to the future, the partners see increased growth in four wheeled Honda vehicles, similar to the three wheeled ATCs. As well the Quebec based Bombardier Company is diversifying its product line including tractors, a water borne vehicle the Sea Doo and cars. Honda, as well, is planning on expanding into tractors and emphasizing the utility aspects of their ATV line with such accessories as ploughs, snow blowers and lawn mowers, among others.

The new structure also provides the company with 2400 square feet of boat storage space in the basement plus an enlarged parts department at the rear. A separate building adjacent to the main showroom will continue to serve as the service department for the complete product line.

Both Paul and Steve paid tribute to the efforts of Bill Prentice both prior to their take-over of the business and during the recent construction phase. "His many years of experience and expertise were invaluable in seeing us through this," Steve said.

The company employs a staff of six.

Looking back over the many years of growth, Paul reflects that the company's motto, "We make the outdoors fun," has become the best way to describe the many areas of company

involvement. Glancing around the spacious new showroom he added, "...and this is our commitment to ensuring everyone continues to enjoy the outdoor of the Highlands."

COUNCIL
WHO IS...

Just - I will deal fairly and objectively with Council business.

Keen - I am attending Council Meetings regularly to keep informed.

Learned - I earned a B.A. Degree in Sociology from York University.

Manager - I am an ex Sgt. of M.T.P.D. with several man-management courses to my credit.

Neighbourly - I have been a lifetime seasonal visitor to the Highlands; a property owner in A. H. & M. for eleven years; and a permanent resident for one and a half years.

Open - I am open to your suggestions, ideas, and comments.

Progressive - I wish to improve services and encourage beneficial growth for all areas of the township.

Qualified - I am registered in the Municipal Administration Course at Sir Sandford Fleming College.

Reliable - I was employed by M.T.P.D. for over twenty-seven years. I am the current President of M.L.R.A. and one of the founding members (1979).

LET'S DISCUSS IT - 286-2925

Valuing farm assets

- Ag report -

by Bill Baxter

The current Ontario Family Farm Interest Reduction Rebate Program (OFFIRR) requires participating farmers to submit a "market value inventory" of their farming assets. This is different than the "Capital Cost Allowance" that is often used for income tax purposes. In fact, market value inventory is necessary if you are to know the true value of your business.

For example, my house probably cost the original owner about \$65,000. By the capital cost allowance method of depreciation, it should now be worth about \$55,000. However, I could reasonably expect to get \$70,000 to \$75,000, given 2 or 3 months to sell through a good agent. On the other hand, I might say it's worth \$90,000, but if I can't get it, it's not worth it.

In today's market, farm buildings depreciate at a much greater rate than their capital cost allowance would indicate. One certified rural appraiser suggested this formula: Take the depreciated cost of the building, and value it at 30% of that. In other words, if you have a 10-year old building that cost \$100,000, its capital cost allowance is at 5% per year. So now it has depreciated to \$50,000. Its market value, or what you can sell it for, is probably about 30% of that, or \$15,000.

Valuing equipment is much the same as buildings. By attending sales, reading ads, pricing similar used machinery, we can get an idea of what our equipment is really worth. In today's market, the depreciation schedule in the back of your income tax guide may not be too far out. That's up to your judgement.

Valuing crops in the ground is a common question. I like the method of valuing it at the cash cost of establishing the crop, for most of the growing season, or at the insured value. But as the crop reaches harvestable maturity, a conservation estimate of yield and price less the cost of harvesting is realistic.

Market livestock should be valued at market price on today's weight and price, while grade breeding stock, will be very close to the same. Pure bred stock may have a premium which only you or a well-advertised sale can determine.

In closing, let me leave you with this thought. Surprises are great things at birthday parties. In business, however, they are only good when they're in your favour. In valuing your assets, leave room for a good surprise.

Events this week:

October 7 - 13: Agri-Food Week in Ontario. Several farm organizations in Victoria County will have

Clerk
Township of Stanhope

Blaze sparks department's formation

The first seeds of thought that Minden needed a fire department were created by the disastrous fire of May 15, 1942 when almost the entire east side of Main Street was destroyed by a fire that started in Brintnell's Bake Shop and spread the length of the street. This fire was reminiscent of July 28, 1890 that also destroyed a large portion of the business section.

In 1946 at a meeting of the Minden Businessmen's Association it was decided that the Association would purchase fire fighting equipment and that each member would designate one employee to be a member of a volunteer fire brigade, and pay his wages while fighting fire.

A war surplus trailer pump was purchased from Levi Brothers in Toronto, this pumper was a Bickell Seagrave pump with a 350 G.P.M. rating, and powered by a 4 cylinder Continental gas engine, a 1932 Chev car was purchased from J. Earl Hewitt Chev and Olds, the body was cut down and a hose reel and trailer hitch mounted to haul the pumper.

In 1950 the fire department was taken over by the Municipality and at a later date a 1937 Ford fire truck with a Bickell Seagrave 400 G.P.M. midship mounted pump was purchased from C. E. Hickey & Sons of Hamilton. This pumper had formerly belonged to the town of Gravenhurst. The pumper was stored in a small garage on Milne Street near the site of our Municipal Office in summer and in J. Earl Hewitt's garage in the winter.

In 1962 a 1955 White fire pumper was purchased from Pierre Thibault and Sons of Pierreville, Quebec. It had a Thibault 500 G.P.M. midship mounted pump and a 500 gallon water tank plus hose, hose reel and related equipment. Also purchased was a 9 H.P. Hale portable pump with a 350 G.P.M. rating, carried on the fire truck.

This pumper remained in service until 1971 when a new cab over Ford chassis Pierreville Fire pumper was purchased from Pierreville Fire Trucks Ltd.

This pumper was the first Class "A" pumper the town had purchased. It had a Waterous 625 G.P.M. midship mounted pump, 500 gallon water tank and all the equipment to bring it up to a Class "A" standard.

This pumper was housed in the garage area of the Municipal Office building until a need for larger quarters for the Fire service and the Ambulance service arose.

A contract was given to Broadworth Construction of Bancroft to construct the building on Prince Street, with an area of 3900 square feet. This comprised 4 garage bays, a training room, public washrooms, office space, plus other facilities; all inside finishing was done by members of the Fire Department including carpentry, electrical and mechanical

625 GPM Pumper.

work.

In 1959 the Kinsmen Club of Minden purchased a 1959 Ford Station wagon and equipped it with the required equipment for an ambulance. This they gave to the Municipality to be operated by the Fire Department. The Department operated the ambulance service with volunteer drivers with St. Johns First Aid courses until it was taken over by Ontario Hospital Services in 1970.

In 1977 with the need for more available water at rural fires it was decided that a tank truck was needed, a 1,000 gallon tank truck was purchased from Stanhope Fire Department. This truck remained in service until 1980 when one of the Roads Department trucks was converted into a tanker, with the addition of a 2,000 gallon SS tank, a 350 G.P.M. P.T.O. pump, a hose reel and a 1,000 gallon portable tank. In 1982 an emergency vehicle was purchased and equipped with autoextraction equipment and a crew trained at an autoextraction course conducted by instructors from the Ontario Fire Marshall's Office at Brown's Auto Wreckers on Bobcaygeon Road. This course was attended by other firemen from Haliburton and Victoria Counties. In all they demolished 40 cars.

Today Minden has a well-trained modern Fire Department. Two of our personnel have graduated from the Ontario Fire College at Gravenhurst and a third member is presently attending the college. The courses include fire operations, fire prevention, inspection and fire department management.

Since our beginning in 1946 we have experienced some tragic and disastrous fires, notably those when lives were lost. On June 11, 1958 the Hugh Alton family lost their 3 year old son in a house fire; on August 11, 1960 Wilfred Ackerblade's barn burned and his 5 year old nephew was lost when trapped in the barn; on December 24, 1961 a fire at the Jim Stanton home on Highway 35 near the Wagon Wheel took the lives of Mrs. Stanton, their 4 year old daughter, and Mr. and Mrs. John Hartley who

were guests of the Stanton's. October 29, 1966 was the date of a fire that took the life of Medley Parley at his cottage on Big Bob Lake; on January 7, 1972 the fire department was called to the home of Harvey Silvers on Highway 121, Mr. Silvers and his son both lost their lives in this fire.

Some of the other disasters that Minden had were the December 24th, 1963 fire that destroyed Currie's 5 - \$1.00 store. No lives were lost but the family of Irvin House who lived above the store narrowly escaped. Extensive damage was caused to the Oasis Restaurant and Dollo's I.G.A., the two adjacent buildings. The fire departments from Haliburton, Fenelon Falls and Lindsay were called in to help contain this fire.

There was also another near disaster when on the summer evening of July 15, 1962 the Dominion Hotel caught fire in the living room of the owners' living quarters on the second floor. Fortunately the fire department was able to contain it to the area of origin.

It is our belief in the fire service that most fires can be prevented by good fire safety practice. We have some excellent pieces of literature that will assist anyone and are free for the taking.

The Fire Department wishes to thank all the citizens, business people and especially our Municipal Council who have been so co-operative and supportive in the past. Special thanks to the late L. A. Pritchard, Reg Booth, the late Ernest Hewitt (our first Fire Chiefs), Doug Pritchard, Lyle McKnight, Richard Parisotto, Eldon Deacon (who succeeded Ernest Hewitt) and many others too numerous to mention.

Much of this history has been compiled from memory, and records that sometimes were very vague; any errors or omissions I sincerely regret, since 1946 I may have forgotten some details.

W. M. Jackson
Fire Chief
Anson, Hindon and Minden

Figure skaters prepare for 1985-86 season

submitted

The Minden Figure Skating Club is busy getting ready for its 1985-86 season. Registration nights are over, but there is still time to register. If you haven't done so yet, please contact us for forms. Your early forms can be processed and your child grouped accordingly. Even if you are putting your child in the guest skating programme, let us know so that he/she can be grouped ahead of time. It does pay to be early, as Peter Hynard found out on October 2. Peter registered Mathew and therefore was eligible for the draw of \$50.00. Peter was the lucky winner. Congratulations!

The 85/86 season is just beginning for most of us, but some of our skaters have been skating through the spring, summer and fall. For some, this dedication and perseverance pays off. Miss Lisa Carr has been chosen by the Skaters' Development Committee of Eastern Ontario to attend a two day seminar in Kingston on November 9 and 10. The seminar is being offered to

those skaters who have been identified by judges and coaches as having potential and talent. Congratulations Lisa and good luck!

Miss Jane Symons will be back with us again this year as our senior coach. Thank you Jane, and best wishes for a speedy recovery. We have a new junior coach for the upcoming season. Miss Shelley Markle is very highly qualified for this position. She will be the Can-Skate and Can-Figure Skate pro, plus giving any private, semi-private or group lessons to those who request them. Welcome to the club, Shelley!

The skating carnival will be held on March 23, 1986 this season. The theme will be Sounds of Music, a look at music and costume through the century. We are thrilled to announce that Mr. Don Jackson will be our top guest skater. The Challenge Cup Races are scheduled for this day during intermission. Watch for more information on this exciting new event!

Come out and join the fun, To Skate Is Great!

The new Junior Pro for the Minden Figure Skating Club, Shelley Markle, is 20 years of age and started skating at the age of 3. She obtained her gold dances, gold free skate, seventh figure, Novice Competitive, Junior Competitive and Variation Dance. She placed fourth in North Sectionals in 1982, fourth in Central Divisionals and competed in Canadians. In 1983 she placed second in Northern Sectionals. For the past two years, Shelley taught in Sydney, Baddeck, North Sydney and Glace Bay, Nova Scotia. She returned to Ontario in March as there was basically only winter skating. She has completed her level one coach's theory and technical and will be teaching in Haliburton, Minden and Huntsville this winter. Shelley was also active in school sports, participating in volleyball, basketball and track and field.

Did you know?

by Suzanne Gilder

Has your cheque payable to MTC been returned by the bank lately?

If so, don't be shocked if you can't get your renewal sticker for your vehicle next time you go to an issuing office. On August 1, Ontario's vehicle computer was reprogrammed to keep records on all "bad" cheques used for vehicle registration and retail sales tax payments. Vehicle owners will be notified immediately by MTC if their cheques are returned by the bank. Failure to pay within 30 days of the date of the notification letter, means an additional penalty of \$5.00 per set of plates or 10% of the total amount owing (whichever is greater) will be assessed.

If the total amount owing is not paid before the plates expire, it will be added to the plate renewal fee. And, plate renewal will be denied until any NSF amounts are cleared.

For those who have unpaid parking fines, look out. The second phase of the collection system which includes denial for parking fines will go into effect next year.

Please keep in mind that your County Information Centre is here to help people of all ages find solutions to social, health, governmental

and environmental subjects. If you have a problem relating to this or have any questions, we can help. Our office is located in the Drag River Building and our office is open 10 - 4, weekdays.

ATTENTION ANGLERS!

Are you concerned about fisheries management within Minden District?

As announced earlier, Minden District will be holding a fisheries management planning open house this fall. This is your opportunity to review, comment upon, and contribute to the fisheries management program.

THE CANADIAN JOBS STRATEGY.

WORKING OPPORTUNITIES FOR PEOPLE.

It is clear that Canadians need more jobs and businesses want to develop and expand. That's why the Government of Canada, in co-operation with the provinces, territories and the private sector, has initiated a comprehensive new Canadian Jobs Strategy.

The Jobs Strategy is a fundamental change in the way we invest in our most important resource - the people of Canada. The built-in incentives of the strategy encourage employers to develop new jobs and establish training programs which will lead to skilled and lasting employment.

A COMPREHENSIVE STRATEGY TO CREATE SKILLED AND LASTING EMPLOYMENT.

Today's highly competitive and rapidly changing job marketplace has left many Canadians frustrated and unable to find satisfying and lasting employment. At the same time employers are often unable to hire people with the specific skills they need. The new Jobs Strategy now offers a flexible and comprehensive set of programs

to bring together the needs of workers and employers and open up new working opportunities through training and on-the-job experience.

The Strategy is composed of six programs which are aimed at very specific and real difficulties being

experienced by people looking for work in communities all over Canada. The programs assist people who have been displaced by technological changes in the workplace, young people looking for their first job, women re-entering the workforce, and individuals experiencing long-term unemployment. People who are having a hard time getting a suitable job will find programs in the Strategy to aid them in gaining skills which will make them more employable now and in the future.

SKILL INVESTMENT

To prepare and train Canadians for future jobs and to guard against their skills becoming obsolete due to technological change, the Skill Investment program will give employers and employees the chance to adapt to changing conditions which can threaten job security. The program encourages employers and employees to work together to develop training programs for their mutual benefit. The program is flexible enough to meet the needs of individual employees. Training courses may be taken on the job or at any training institution.

JOB ENTRY

The first job after school, or after a long absence from the workforce, is often the hardest to get. Job Entry will make it easier for young people to move from school to work and for women to re-enter the job market. This program will help break the vicious circle of "No job because you have no experience and no experience because you can't get a job." Practical training will be provided for up to one year through government support to individuals, employers and community groups. It will give individuals a solid base of marketable skills, by providing a combination of training and direct work experience.

JOB DEVELOPMENT

When some people are out of work for a long time, it is often because the skills they do have are not the skills that are needed out there in the job market. To help Canadians who are experiencing long-term unemployment, Job Development projects assist businesses and communities to provide training and practical work experience which will build up an individual's marketable skills and improve opportunities for lasting employment.

SKILL SHORTAGES

The Skill Shortages program will help employers develop skilled labour to increase productivity and competitiveness. To encourage employers to train Canadian workers in skills for which there are shortages, training assistance programs have been created.

The Government of Canada will cover many of the employer's direct costs for training in job categories in which work is available, but for which there are currently too few skilled Canadians.

INNOVATIONS

The Innovations program looks to the future of the Canadian workplace. It will act as a catalyst to tap the creative resources of the Canadian people and stimulate new initiatives for revitalizing Canada's labour

market. Innovations provides financial assistance to individuals and groups who have pilot and demonstration projects which test new solutions to labour market problems. There are no predetermined limits on projects, and proposals may address regional concerns, or issues which are national in scope.

COMMUNITY FUTURES

The Community Futures program will be developed to better understand, anticipate and respond to the impact of social and technological change in communities.

The program will address the real and pressing needs of communities by becoming involved in initiatives proposed from within the community itself. The particular strengths of a community can be the basis of its economic resilience, and the Community Futures program will build on these strengths by providing timely support and resources.

For detailed literature either send in the coupon below, visit your local Canada Employment Centre, or call **1-800-387-0610** during business hours.

THE CANADIAN JOBS STRATEGY. WORKING OPPORTUNITIES FOR PEOPLE.

GROWTH

In the late sixties and early seventies I was regularly involved with coordination of special projects at the Stelco and Dofasco mills in Hamilton. Despite the unique advantages of that city, many residents I dealt with seemed consumed with worry that they were continuously playing second fiddle to their eastern neighbour. Any comment I made about their own accomplishments seemed always to be dampened by a moaning, "Yah, but look what Toronto has." Things have changed a lot in 'steel town' since then. We in our Townships could learn a lot from Hamilton's renewed pride and enthusiasm.

Municipal growth is measured in many ways, physical and otherwise. What can be said for certain, whether in Hamilton or Minden, is that other municipalities' politicians must work largely for the growth of their own constituency. That's what they are elected for. Like Hamilton, it's time AHM realized the advantages of its own location and its own residents, and spent more time developing that potential than grumbling over successful efforts of the neighbours and their elected officials.

In fact we do have much to be proud of and a healthy bit of momentum going our way. I believe my past industrial training and experience in project-management has been a significant contribution toward a wide range of recent developments that include the new Minden sidewalks, the cost

savings of an office computer system, and development of the 'Welch Store property' as a village-centre facility for family and commercial uses. All three projects began with design proposals and cost-benefit reviews prepared by this councillor.

Right now, use of our fairground and adjacent parkland has become an issue with serious implications for community growth. I am encouraged that Council has finally endorsed a three month old committee recommendation from Pat Burk, Dave Stevens, and myself to meet with the major users of those lands in order to plan improvements for the next five years or more. Past Councils relied too much, I feel, on volunteer and service organizations

to fund improvements to the grounds. Council should commit itself to a long term cooperative development that allows for guaranteed use of the area by community groups. There is more value and growth to be gained by such open cooperation than secretive and selective development for commercial or institutional uses. There are alternative locations for those special needs, but only one fairground. It should shrink no further.

Of course there are many other aspects of municipal growth that our next council will need to address. Adequate access for lake use by all residents, coordination of by-pass development and village-core concerns, and taking advantage of our unique potential for residential growth are three of the most important.

NEXT WEEK: Growth and the Chamber of Commerce.

Arsenault - Wrightman nuptials

A wedding of local interest took place in Minden on September 7, when Marilyn Arsenault married Robert Wrightman. The bride is the daughter of Corinne and Hector Arsenault of Minden, the groom is the son of Kathy and Ronald Wrightman of Haliburton.

The wedding took place at St. Paul's Anglican church and was a mixed (Catholic/Anglican) marriage. The bride's Uncle, Rev. Paul Arsenault from Notre-Dame de Cap Shrine, Three Rivers, Quebec, assisted at the wedding as well as a long time friend of the groom Rev. Andrew Hutchison who was the Parish Priest at St. Paul's many years ago. Father Hutchison is now a Dean at Christ Church Cathedral, Montreal, Quebec. Also helping in the ceremony was Rev. George Elliott. While the signing of the register took place in the ceremony Rev. Paul Arsenault, also a song composer, sang a song specially composed for the occasion.

The bride wore a beautiful satin dress with a Chantilly Lace overcoat which was also worn by her mother and sister. She carried a large

Mr. and Mrs. Rob Wrightman.

bouquet of baby blue and royal blue roses and white orchids. The matron of

honour was the bride's sister, Pat Adamson, who along with the bridesmaids

wore gowns of baby blue. The bridesmaids were: Shelley Morrison, Suzanne Penney, Marie Hodson, (all long time friends of the bride) and Lorie Wrightman (sister of the groom). The flower girls were Catharine and Christine Arsenault (nieces of the bride).

The groom wore a navy blue tuxedo with the ushers in navy and baby blue. The best man was the groom's brother, Steven Wrightman, along with ushers: David Barker, Chris Hodgson, (friends of groom), Tom Adamson (bride's brother-in-law), Paul Arsenault (bride's brother).

The dinner and dance reception was held at the Legion Hall in Haliburton. The guests came from the Toronto area, Welland, Quebec and as far away as California. One important guest was the groom's great grandmother, travelling from Newmarket for the wedding, Sarah Wrightman, an old pioneer of Haliburton County.

The bride and groom have returned from a honeymoon that took them through western Canada with stops at Banff, Jasper, Vancouver and Victoria.

Trent-Severn water levels

As of September 30, the reservoir level fell only slightly from the previous week, decreasing 2.27% to stand at 52.94% of the full level. The fall was less than the expected 0.5% per day decrease due to the wet weather experienced near the end of the week. The reservoir total is still about

6% over the ten-year average and a full 16% over the 1983 level.

In the week ending October 4, the flow from the Gull River remained fairly constant with 17.4 cubic metres per second flowing past the village of Norland. The Burnt River flow

increased throughout the week and held at 13.7 cubic metres per second on October 3.

All the Kawartha lakes except Balsam and Scugog rose slightly over the week ending September 30, and was mainly due to rain and reservoir flow. Balsam Lake fell only marginally while Scugog Lake remained steady.

Lake Simcoe level began to decline at the rate of close to one centimetre per day in the first week of October yet the level remained 6 cm above the rule curve on October 4. At this rate, the rule curve should be reached within the next two weeks.

MINDEN FIRE DEPARTMENT

OPEN HOUSE

Sunday, October 13, 1985.

1:00 p.m. - 5:00 p.m.

You are invited to meet the members of your Fire Department and view the fire fighting equipment.

W.M. Jackson,
Fire Chief

around the county town

Call 286-1288 — 9 a.m. - 4 p.m.

We were happy to see that Cliff and Jean Lacey have returned safely from a visit to Shelburne and Orangeville where they saw all their family. Cliff also had the foresight to bring us a Blue Jay hat so we can be "real fans!"

Mrs. Mary Wright visiting from Scotland, travelled with her family to visit Mr. and Mrs. Harry Claridge in Baysville.

Rotary weekly bingo is over for the season - the games are still taking place on the last Tuesday of each month, so get out there and support your local service clubs while having a good time.

The third annual concert sponsored by the H.A.V.E. Committee, Haliburton Artists Variety Evening, will be held at the High School on Saturday, November 2 at 8 p.m.

Florence and Phil Robinson recently drove to Bracebridge and enjoyed the beautiful fall colours. Visiting the Robinsons on the weekend were Phil's sister Mrs. Alex Bowen of Little Britain and Mrs. William Negus of Lindsay.

The Agricultural Society meeting will be held October 9 at 7:30 p.m. at Marg Miller's residence NOT at the Old Curling Club as previously reported.

The new CHACE Place in Minden will be the topic of a speech given by Rosie Kenney at the general meeting of Minden Nursery Play next Tuesday evening. The meeting, which will include registration for the coming year, will be held at the Minden United Church October 15, at 7:30 p.m. For more information, contact Mary Hamilton at 286-2188.

Don't forget the free movies for children at the Library/Cultural Centre on Friday, October 11 from 7:15 to 8:15 p.m.

Local winners of the poster contest sponsored by the county library system were Jamie Kent of Grade 4 who took first prize, Jessica Wallace of Grade 2 who received second prize and third prize for Grade 3 went to Willy Wallace. Congratulations youngsters.

A special anniversary service will be held at Minden United Church this coming Sunday, October 13 to celebrate the 60th anniversary. In keeping with that, Mrs. Rowland Sedgewick of Minden brought in a letter from Jennie Hagan of Haliburton which contained a clipping from the local paper describing the dedication of

the church. With her kind permission, we have pleasure in sharing this with you.

New Church dedicated Sunday Last

On Sunday, January 17th, 1926, the new United Church of Canada at Minden was dedicated to the worship of God. The new edifice was filled to the doors with the people of the congregation together with their friends from far and near, who came to share in their joy of having completed the task of erecting this beautiful building.

Half an hour before the time set for service, the bell donated by Mr. and Mrs. G.A. Jordan was rung for the first time by Mr. Robert Taylor and Mr. G.A. Rogers, the two oldest members of the congregation.

The visiting ministers present were Rev. F.L. Brown, B.A. of Toronto, Rev. J.D. Byrnes, D.D., of Toronto, Rev. Francis Johnson of Lindsay and Rev. C.C. Miller of Haliburton, with the pastor Rev. Wm. Parker also assisting in the service. Rev. Byrnes, after being presented with the Church by Mr. R.H. Baker on behalf of the Trustees, dedicated the building, following which Rev. Brown delivered a very impressive sermon. After the service the Sacrament of the Lord's Supper was dispensed by Rev. Byrnes. Service was also held in the evening. The offerings for the day amounted to \$125.

It was much regretted that the pulpit, chair and communion table, given by Mr. T.H. Stinson in memory of his parents, did not arrive in time to be dedicated on Sunday and this ceremony will take place at some future date.

Besides the gifts already mentioned, the ladies of the congregation donated the pews, the carpet and the chairs for the basement; Mr. E.A. Stinson and Mr. E. Shiers each a pew, the C.G.I.T. a pulpit bible and a light; the Sunday School the corner stone and a light; Miss Cheney's scholars a light and knives and forks by Miss Cheney herself.

It is no small task that a congregation faces in these times of high prices when it undertakes the erection of such a structure as this. But the work is done and it stands as a beacon upon the hill - the pride of its people and a credit to the community. Nearly a year has passed since the first stone was brought to the grounds by willing hands and since then the people have watched its erection step by step until their hopes and expectations were fulfilled.

Sincere sympathy to the Norm Lee family on the recent death of his brother and also the Mrs. Jack Kilpatrick family.

Winners at the Monday evening euchre party at Club 35 were - most lone hands George Alsop, high lady Kathy Garber and high man Art Verbaan. The door prize went to Mary Stevenson while the other winners were Greta Alsop, Bill Donnelly and Ralph Schad.

As you know we at The Times enjoy a laugh now and again - earlier this week Dave Stevens of Beaverbrook Golf Club brought in the following - it was too good to keep to ourselves:

The Way it Is

At 5:45 a.m. your Swiss alarm wakes you up for another day. You crawl off your mattress that was made in the United States, covered by Irish linen sheets. As you pull on your pants, made in Taiwan, over your Korean made underwear, you wonder if it will be a good day. Then you slip into your shirt, made in Hong Kong of course. On the way out of the bedroom you stop to kiss your wife goodbye. She was made in England. While waiting for the kettle that was made in Mexico, to boil, you turn on the radio imported from Germany. Next comes the cup for your coffee. Where else would it be made but China? At the front door (you only get to use this entrance when nobody is looking) you slip into your Italian made shoes and coat. Well, now its out the door and into your Japanese made car and off to work at your Canadian job, (if it's still there.). P.S. Do you ever wonder why Canadians are out of work?

kid's korner

by Jean Lacey

Hi Kids!

Here is another puzzle for you with a word list. Look in the diagram of letters for the words given in the list. Find them by reading up, down, forward, backward and diagonally. They are all in a straight line and do not skip letters. Circle the words in the diagram and cross it off in the list.

It's as easy as that. Have fun!

Q: Why is a gardener like a mystery story writer?

A: Both work hard on plots.

Q: Why is a dumb joke like an unsharpened pencil?

A: Both are without a point.

Q: What did one eye say to the other?

A: Between us there's something that smells.

Boards mark property week

A salute by Ontario's real estate professionals to Canada's heritage highlights the fifth annual Private Property Week scheduled for October 6-14 by the Ontario Real Estate Association (OREA).

Five homes owned by prominent Canadians illustrate the extent of Canada's rich heritage and

are displayed in a series of posters depicting the theme "Come honour our heritage."

The five homes are Alexander Graham Bell's homestead in Brantford, Ontario; Emily Carr's birthplace in Victoria, B.C.; the John Diefenbaker home in Saskatchewan; La Maison Trestler, home of early fur trader John Joseph

Trestler, in Dorion, Quebec; and the famed Anne of Green Gables home in Cavendish, P.E.I.

OREA President Bill Hopkins, noted that while the homes themselves serve as fine examples of Canadian architectural heritage, the five also exemplify Canada's heritage in other ways.

"The Bell home to us

typifies Canada's creative heritage, it's inventiveness," he said. "In the same way, we salute Canada's artistic heritage (Carr), its entrepreneurial heritage (Trestler) and its political (Diefenbaker) and literary (Green Gables) heritage."

Along with the Association, Ontario's 48 local real estate boards, including the Haliburton Real Estate Board, are participating in a variety of ways. The boards are also distributing the heritage home posters and providing several informative brochures to members of the general public.

In addition, the TV documentary "Lost Ground" is scheduled on a number of cable TV stations across the province.

OREA is an organization of more than 30,000 brokers and sales representatives in 48 local real estate boards.

Psychiatrist to address Home Support meeting

by Donna Bailey

Dr. Art Prowse will be our guest speaker at the October 18 dinner meeting at the PineStone Inn and Country Club. As a matter of information he has published papers on the treatment of schizophrenia and investigative procedure in depression.

He is actively interested in community psychiatry and in the care and support of elderly persons in need of psychiatric services. Presently over 50% of his

clinical work is in geriatric psychiatry.

He is the acting director of psychiatric services at the Peterborough Civic Hospital dealing also with the psychiatric assessment office for the elderly. We know that he will be a very interesting speaker and hope you will attend.

The date for this meeting is Friday, October 18. A full course roast beef dinner will be served at 12 noon at a cost of \$6.25 per person. Dinner reservations are needed by October 11. For dinner

reservations please call the Home Support office at 457-2941. If you wish to come and hear Dr. Prowse speak plan to be there are approximately 1 p.m. Everyone is welcome, so plan to attend and bring a friend.

Congratulations

To KEITH HILL of the Minden BOWES & COCKS office - top salesman for September for the BOWES & COCKS Ltd. offices in the Haliburton Highlands.

NOTICE

The Ministry of Natural Resources is proposing to stabilize the Shoreline to prevent erosion at the Fire Operations Headquarters in Haliburton on Head Lake. The burying of the existing water line in the lakebed at the same locations is also proposed.

This involves placing 4" - 10" gabion stone along the shoreline to prevent erosion. The trenching of the lakebed for a distance of 20 feet from the existing high water mark is also proposed to facilitate burying the water line to prevent freezing.

These projects are being planned in accordance with the approved M.N.R. Class Environmental Assessment for Shoreline and Stream-bank Stabilization.

Such assessments are intended to give interested and affected parties the opportunity to provide input to the planning of such projects and to request, if necessary, individual treatment under the Environmental Assessment Act.

You are invited to direct any inquiries, comments or concerns regarding the shoreline stabilization and burial of the water line to the District Manager, Minden District by October 16, 1985.

Final notice of these projects will be issued to those who reply to this notice and to those who are directly affected.

Ministry of
Natural
Resources

Hon. Vincent G. Kerrio
Minister
Mary Mogford
Deputy Minister

senior league

by Bert Harrison

Dear Readers:

Thanksgiving time is drawing nearer, let us be thankful for all our blessings during the past year. We residents have much to be thankful for here at Hyland Crest, a lovely home, good nursing care, good food, friendly staff. We really fare the best.

Quite a lot of activity here over the weekend. Mary Oliver had her niece and husband come to bring her birthday cheer, she and her husband were missionaries in Africa for a good many years. Mary also had her brother Bill come to join in her celebration at her home near Hall's Lake shore. So she had a real good time, what could she ask for more?

Lily Hogg isn't missing her roommate while she is away, Lily has relatives coming to call on her almost every day. Edith Welch had Edith McArthur come to stay with her to dine, along with Edith's sister Caroline.

We had no sing-song Friday afternoon. Watched movies instead - always something to keep us entertained.

Always good to see our girls return to us Monday morning again. Rev. Burgess had a very interesting message for us Sunday night. When both the Burgesses and Thompson's are there, everything seems to go just right.

Our ladies are working in the craft room keeping everything up to par, making different items for their Christmas bazaar. Tuesday morning Father Ranson from Kinmount Anglican church came over to Hyland Crest this October day. He conducted a communion service and Fred Ballard the music did play.

Members of the auxiliary had their first meeting with a pot luck supper after the summer holidays, they are a

good help here at Hyland Crest in many different ways.

Tuesday noon Doris said all residents who would like to go, we will take you for a bus ride all around the country side and through the towns to see the coloured leaves before they come

tumbling down. I would have liked to go myself on this October day, the reason I didn't I'd better not say.

We thank you Darryl Crowe for coming Tuesday night and bringing a little cheer to play and sing the love songs the ladies like to hear. Thursday afternoon the ladies of the Minden Institute brought and served a lovely lunch on this October day. Ray Jenkins who plays fine piano music played to honour his dear mother on her 95th birthday, congratulations and best wishes we would like to say. They also had a birthday cake for those who had birthdays in September which tasted just great. Ray kept right on playing while we residents ate.

We also had a residents council meeting this October day. We thank Pearl Lyle for acting as secretary while Mary Oliver was away. Olive Hamilton, who works in the office, by the way, her husband Jim had serious surgery just the other day. We're all pulling for you, Jim, and wish you all the best and look forward when you will get back your strength and Olive can return to us again.

We had no sing song Friday afternoon. Doris showed us movies in the auditorium. Doris can rise to any situation, "Norwegian Fisheries," "Spruce Bog" and "Ottawa - Reflections of a Nation". It is good to have Jack Stewart back from hospital where he has been for a few days. Also Teddy Carr went back to Lindsay for a checkup and got a good report and we would just like to say Millie Wood is doing well and gaining every day.

October

"Tis a banner of gold and scarlet

October flings to the breeze.

And none other of all the 12 months

Can boast such colours as these.

For the trees that through all the summer

Have been dressed in the darkest green,

Now hanging with red and yellow

In most gorgeous colours are seen."

SOMETHING OLD - SOMETHING NEW (private)

2 homes on 1 very large lakefront lot
Year round modern 2 bdrm. masonry bungalow - beautiful w.w. rug, picture windows, high and dry basement, drilled well.

Treated log cottage: 2 large bedrooms, fireplace, furnished with fine antiques. Double block garage and woodshed. Parklike setting, tall pines, white birches. Sand beach and dock. Owner will hold mortgage. Reasonable offer.

Must be seen.
